

## Customizing your experience:

In order to customize your experience you will need to create a user login.

Access this by going to [create a new user screen](#) and filling out the form:

Once logged in click on

**MY PREFERENCES**

This tab allows you to:

- Set search preferences (segments vs. titles)
- Define sort order (title, relevance, dated added)
- Change your password
- Define a home page

### CREATE A NEW USER

First Name	<input type="text" value="Laura"/>
Last Name	<input type="text" value="Horgan"/>
Email Address	<input type="text" value="horgan@noblenet.org"/>
Password	<input type="password" value="....."/>
Confirm Password	<input type="password" value="....."/>

[CREATE A USER ACCOUNT](#)

### Homepage Preferences

My Homepage

Featured Video Page

Featured Video Page

Archival Films & Newsreels

Business & Economics

Health

Humanities & Social Sciences

Science & Mathematics

The home page can display featured videos or present a view by subject. When complete

[SAVE PREFERENCES](#)

**MY FAVORITES**

You might want to consider creating a separate folder for each class or unit of instruction. You will need to have an account to save your choices. Click on the **My Favorites tab to create a folder**

### My Folders

Create Folder

Rename Folder

Delete Folder

Select Create folder and give it a name

Creating folders can be set up front or on the fly as you find materials of interest

### Film Speed

This service allows you to view your films in three different speeds. Depending on your class schedule you might want to view these at 400 kbps to reduce choppiness.

And as always contact the library if you have questions or concerns.

Flash	700Kbps
	700Kbps
	400Kbps
	1.5Mbps
