

## How to find an article in the MCC databases

Connect to **Blackboard**.

Click on the library tab.

The Articles Tab is selected by default.

Enter your search terms in the box.

Click on the search button next to the terms you entered. The search results will retrieve full text articles which can be printed, emailed or saved to a flash drive. The type of article retrieved is indicated by the icon on the left hand side.

Depending on the database you will need to click on

under the brief description.

For a more targeted search, click on the RESEARCH GUIDES tab on the library home page and select the appropriate subject.

Please contact a reference librarian for additional assistance. Contact information is available on the library home page.
