

## Accessing Noodlebib

### I have an account....

- Go directly to <http://www.noodletools.com/login.php> and log in with your Personal ID and password
- If you can't remember your password there is [Noodlebib reset tool](#) that can assist.
- If you have an account but have not logged in recently it may have been deactivated. You will need to contact a librarian for assistance by telephone (Bedford 781-280-3706 Lowell 978 656-3005) or use the [reset tool](#).

### I have never used Noodlebib...

If you have never used Noodlebib before to create a Works Cited Page you will need to establish an account.

- Connect to Noodlebib from the database list page available from the [home page](#)
- or go to: [Noodlebib](#) to establish yourself as an MCC student or Staff member.
- [Register for an account](#)
- Fill in the form selecting a personal ID and password and entering your Initials, graduation date and the last 4 digits of your phone number.

*We recommend that you enter your MCC Student number (A number found on your class schedule) and password when creating an account. Once your folder is established you will be able to log in directly via the internet address above.*

- Create a folder (It is a good idea to create a separate folder for each assignment)

**You cannot go directly to the product web page until your account is created and you have identified yourself as a MCC student or staff member. Noodlebib may require you to re-authenticate yourself after a year of no use. If you have a problem, contact the library for [assistance](#).**
